

INTRODUCING THE FLAIR DL

LIMELIGHT COLLECTION'S NEWEST MODEL!

We are excited to announce the upcoming launch of the all new Flair™ DL (Double Lounge) model, which will join the Hot Spring® Spas Limelight® Collection. This international only model has been designed to meet the specific needs of our global customers seeking enhanced comfort and style.

Key Features

- **Double Lounge Design:** The Flair DL offers two full-length lounges, allowing two adults to enjoy a head-to-toe massage simultaneously. The seating configuration also includes a deep corner seat and two medium seats, comfortably accommodating up to five adults.
- **Premium Comfort & Hydrotherapy:** Jet placements and seat geometry are inspired by the proven design of the Flair lounge, delivering a reinvigorating experience with 43 total jets, including a practical entry/exit flat area that can also be used as a cool-down seat for added versatility.
- **Quality & Durability:** Built to the highest standards, the Flair DL uses durable components and undergoes rigorous testing to ensure long-lasting performance and minimal maintenance.
- **International Focus:** This model is exclusively available for international markets, filling a key gap in our portfolio and responding directly to customer feedback and market demand.

Availability

The Flair DL is now available to order via the Hot Spring dealer portals in New Zealand and Australia. We look forward to bringing this innovative new spa to our international customers.
